Donor:	Recipient:
(Signature of license holder)	(Signature of recipient)
By signing we understand and acknowle	ledge to postdate, predate or otherwise falsify a Possession Certificate is unlawful.
	

Skulls Are State Property

Skulls are both fascinating and valuable. When found in the field, the skulls of all protected species remain the property of New Mexico—unless from an animal legally taken by a licensed hunter during an approved hunting season. This rule applies to all individuals, whether hunting or not.

This important law enables conservation officers to better regulate the taking of biggame animals solely for the head or trophy.

Deer and elk shed antlers each year. Although possession of shed antlers is legal, possession of antlers attached to a skull found in the field is not. Antlered skulls may be available for purchase from NMDGF. If purchased, the receipt must be retained by the owner. Should probable cause suggest an animal was killed or is possessed unlawfully, conservation officers may confiscate such skulls. If you find the skull of a protected animal, leave it where it is found and contact an NMDGF conservation officer.
